New features
Available in Autocat v9

User interface
New shortcut buttons and an improved user interface give you quicker and easier access to the most commonly used product information.

Product tree
The new product tree allows you to quickly drill down sub-categories. It also enables complex groups to be split into additional levels.

Euro emissions standards
Matching on Euro emissions standards provides greater accuracy when searching for exhaust systems, catalytic converters, EGR valves and lambda sensors.

Battery descriptions
Enhanced product descriptions help users quickly differentiate between standard, start-stop and auxiliary batteries.
